

# CONTRACT

La Linea Contract nasce dalla volontà di soddisfare le esigenze di comfort, eleganza e sicurezza che richiedono le costruzioni alberghiere in genere ed ogni altro locale pubblico quali teatri, scuole, ospedali e altri. Questa collezione include porte tagliafuoco fino a 120 minuti certificate secondo le normative più recenti e porte insonorizzate fino a  $Rw=42$  decibel. Oltre ai modelli proposti a catalogo, viene offerta la possibilità di personalizzare il prodotto secondo le esigenze del cliente. Sono numerosi gli hotel in cui sono state inserite le nostre porte tagliafuoco in Italia e all'estero, progetti in cui è stato importante garantire sicurezza ed offrire anche gradevolezza estetica. Tutte le nostre porte tagliafuoco sono anche insonorizzate:  
- EI 30  $Rw=33, 35$  o  $42$  db - EI 60  $Rw=38, 42$  db.

The Contract line originates from the will to meet the demands for comfort, elegance and safety which accommodation facilities as well as any other public facility such as theatres, schools, hospitals and others, generally require. This collection includes fire doors rated up to 120 minutes and certified according to the most recent regulations and  $Rw=42$  decibel rated soundproof doors. Apart from the models presented in the catalogue, we offer the possibility to customise products according to client needs. The hotels where our fire doors have been installed are many, both in Italy and abroad, projects where guaranteeing safety while offering a pleasant aesthetic outcome was essential. All our fire doors are also soundproof:  
- EI 30  $Rw=33, 35$  or  $42$  db - EI 60  $Rw=38, 42$  db.

La línea Contract nace de la voluntad de satisfacer las exigencias de confort, elegancia y seguridad requeridas por los hoteles y todo tipo de establecimiento público como teatros, escuelas, hospitales y otros más. Esta colección incluye puertas cortafuego hasta 120 minutos con certificaciones que cumplen con las normativas más recientes y puertas isofónicas hasta un valor de  $Rw=42$  decibelios. Además de los modelos propuestos en el catálogo, también se ofrece la posibilidad de personalizar el producto según las exigencias del cliente. Son muchos los hoteles, tanto en Italia como en el exterior, en donde se insertaron nuestra puertas cortafuego en proyectos que pretendían combinar la garantía de seguridad con una estética placentera. Además, todas nuestras puertas cortafuego son isofónicas:  
- EI 30  $Rw=33, 35$  o  $42$  db - EI 60  $Rw=38, 42$  db.

## DUBAI

I ricami sul legno che decorano le porte regalano antiche emozioni e donano atmosfera agli ambienti. Il risultato estetico degli intarsi è frutto della maestria artigiana accompagnata dall'ingegnerizzazione della produzione. Le preziose lavorazioni realizzate in legni pregiati mettono in risalto tutto il calore della materia, attribuendo alle porte un valore unico e distintivo. La delicatezza ed il pregio delle essenze caratterizzano ogni ambiente con uno stile raffinato. La collezione intarsiata nasce da un pensiero artigiano, per un ambienti moderni e classici senza tempo.

The marquetry on wood which decorates the doors donates ancient emotions and infuses a special atmosphere in the environment. The aesthetic outcome of the inlay work is the fruit of artisanal mastery combined with production engineering. Precious finishes made with refined wood enhance the warmth of this material, giving distinctive and unique value to the doors. The delicacy and refinement of essences characterise each environment with a refined style. The marquetry collection was born from an artisanal idea, for modern and classic, timeless environments.

El taraceado en la madera como decoración en las puertas regala emociones antiguas y le da ambiente a los entornos. El aspecto estético del taraceado es el resultado de la combinación de la maestría de los artesanos con las técnicas de ingeniería de la producción. Los refinados trabajos realizados en maderas preciosas ponen en valor todo el calor del material, que atribuye a las puertas un valor único y diferenciador. La delicadez y la nobleza de las maderas caracterizan cada entorno con un estilo refinado. La colección taraceada se origina de una intuición artesana ideal para entornos modernos y clásicos atemporales.

Alta calidad y personalización para los paneles de revestimiento lisos, pantografiados o almohadillados, en madera maciza o en aluminio. Además, la amplia gama de accesorios resume perfectamente estética y funcionalidades.

## ACCESSORI E OPTIONALS PER PORTONI BLINDATI

ACCESSORIES AND OPTIONALS FOR ARMoured DOORS / ACCESORIOS Y OPCIONALES PARA PUERTAS BLINDADAS

### CERNIERE MIMETICHE

MIMETIC HINGES  
BISAGRAS OCULTAS

Realizzate in lega metallica ad alta resistenza con profilo sagomato in modo da consentire la rotazione dell'anta fino a 180° mimetizzandosi completamente con la struttura del portoncino.

Made from high-strength metal alloy with shaped profile to allow the door to rotate 180° blending in fully with the structure of the door.

Realizadas en aleación metálica de alta resistencia y perfilada para permitir una rotación de la hoja hasta 180°, ocultándose enteramente con la estructura del portón.

### CERNIERE REGISTRABILI

ADJUSTABLE HINGES  
BISAGRAS REGULABLES

Saldate alla struttura a filo continuo consentono la regolazione dell'assetto della porta in altezza rendendo l'installazione più facile e precisa.

Continuously welded to the structure, they allow the fit of the door to be adjusted in height, thus making installation easy and precise.

Soldadas a lo largo de toda la estructura, permiten regular la posición de la puerta en altura, haciendo la instalación más fácil y precisa.

### ROSTRI PARASTRAPPI

HINGE BOLTS  
PIVOTES ANTIARRANCAMIENTO

In trafilato d'acciaio esagonale da mm 17 in finitura nichelata, disposti sul lato verticale delle cerniere, impediscono lo scardinamento dell'anta.

In 17 mm hexagonal extruded steel with nickel plated finish. Fitted to the vertical hinge side of the door to prevent it from being unninged.

En trafilado hexagonal de acero de mm 17 en acabado niquelado, puestos en la parte vertical de las bisagras, impiden el desquiciamiento de la hoja.

### INCONTRO SERRATURA REGOLABILE

ADJUSTABLE LOCK STRIKER PLATE  
CERRADERO CERRADURA REGULABLE

In fusione di poliammide sei e fibrovetro, si registra dall'interno permettendo così l'accostamento dell'anta al telaio secondo necessità.

In cast polyamide six and fibreglass, adjusted from the inside to bring the door leaf closer to the frame according to need.

En fundición de poliamida seis y fibra de vidrio, se regula desde el interior, para acercar la hoja al armazón según sea necesario.

### SPIONCINO GRANDANGOLARE

WIDE-ANGLE SPY HOLE  
MIRILLA GRAN ANGULAR

Realizzato in ottone nelle varie finiture di ø mm 16 permette la visuale all'esterno dell'abitazione fino a 180°.

In brass with a selection of finishes. Diameter 16 mm with a 180° angle of view.

Realizado en latón en diferentes acabados ø mm 16, brinda un ángulo de visual externo del hogar hasta 180°.

### SPIONCINO DIGITALE

DIGITAL SPY HOLE  
MIRILLA DIGITAL

Optional

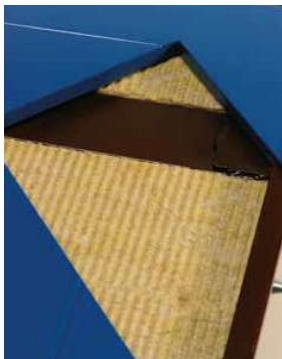

Di facile utilizzo anche da parte dei bambini, persone anziane, disabili. Premendo semplicemente un pulsante puoi visualizzare chi si trova di fronte al portoncino "angolo di visione: 150°".

Easy to use, even by children, the elderly and disabled. By simply pressing a button, you can see who is at the door "angle of vision: 150°".

Fácil de utilizar, hasta para los niños, los mayores y los discapacitados. Apretando un simple botón, se puede ver quien está delante del portón "ángulo visual: 150°".

### COIBENTAZIONE INTERNA

INTERNAL INSULATION  
AISLAMIENTO INTERNO

In fibra minerale di densità Kg 140/m³ viene inserita nei volumi vuoti dell'anta garantendo così un alto isolamento termo-acustico.

In mineral fibre of density 140 kg/m³, the insulation is inserted in the cavities in the door, thus guaranteeing high thermo-acoustic insulation.

En fibra mineral de densidad Kg 140/m³, el aislante se inserta en los huecos de la hoja, para garantizar un elevado aislamiento termo-acústico.

### SOGLIA MOBILE "PARAFREDDO"

MOBILE DROP SILL "DRAUGHT " EXCL.  
UMBRAL MÓVIL "BURLETE"

Dispositivo di chiusura automatico posto sul lato inferiore dell'anta. Assicura la tenuta ermetica contro gli spifferi d'aria e luce.

Automatic closing device fitted to the bottom of the door to guarantee against the entry of draughts and light.

Dispositivo de cierre automático puesto en la parte inferior de la hoja. Asegura estanqueidad contra las corrientes de aire y luz.

### BATTUTA INFERIORE "CE"

FIXED TRESHOLD REBATE  
UMBRAL FIJO "CE"

Particolarmente indicata per porte collocate all'esterno, sostituisce e migliora i vantaggi della soglia mobile.

Recommended for external doors and replaces and improves the advantages of the mobile drop sill.

Especialmente indicada para puertas externas, reemplaza y mejora las ventajas del umbral móvil.

### LIMITATORE DI AP. / PALETTO NOTTE

OPENING LIMITER  
LIMITADOR DE APERTURA DE HOJA

Optional

Moderno discendente della catenella, viene azionato dall'interno tramite un pomolino impediendo qualsiasi tentativo di intrusione.

A modern descendent of the security chain, this device is operating from the inside by a knob to prevent any forced entrance.

Un descendiente moderno de la cadena, se acciona mediante un pommo, para impedir cualquier tentativa de intrusión. P

### CHIUDIORTA AEREO INTEGRATO

INTEGRATED OVERHEAD DOOR  
CIERRAPUERTA AEREO INTEGRADO

Optional

• Completamente integrato nell'anta del portoncino rende visibile la guida di scorrimento solo a porta aperta;

• Soluzione tecnica affidabile e non appariscente.

• Fully integrated in the door making the slideway visible only when the door is open.

• An inconspicuous reliable technical solution.

• Totalmente integrato en la hoja del portón, expone la guía de deslizamiento solo cuando la puerta esté abierta;

• Solución técnica fiable y no pretenciosa.

### CHIUDIORTA AEREO A VISTA

EXPOSED OVERHEAD DOOR CLOSER  
CIERRAPUERTA AEREO EXPUESTO

Optional

• Montato a vista in modo semplice e veloce;

• Chiusura sicura grazie alla regolazione della forza;

• Forma compatta per un chiudiporta funzionale ed elegante.

• Mounted in full view simply and fast;

• Secure dosing thanks to the adjustable force;

• Compact form for a function and elegant door closer.

• Montado con visual completa de manera simple y rápida;

• Cierre seguro gracias a la fuerza regulable;

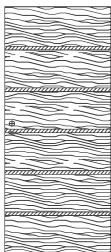

• Forma compacta en un cierrapuertas funcional y elegante.
